SCHOOL MANAGEMENT SYSTEM

About Us

Q Ventures Pvt. Ltd. is an ISO 9001:2008 certified IT Solutions Company that provides web enabled e governance; e learning and CMS based webportal solutions for the Education sector. Our company is dedicated to build large enterprise level technology solutions exclusively for the field of Education. Our Vision is to build solutions that would manage the future of educational services in India. Our Solutions are distinct in design to suit Primary, Secondary and Higher Education Sectors and are in compliance with both the State and Central Governments of India.

School Management System for State / Central Schools

The Q Ventures School Management System offers an integrated platform both at the State and Country levels that covers the entire span of education i.e. from primary and secondary to higher and specialist education. The School Management System will encompass the automation of the entire Student Lifecycle (Application, Admission, Attendance, Examination, Evaluation and Promotion), Employee Management (Recruitment, Attendance, Salary, Leaves, and Performance), Finance Management (Fee and Accounts) and Administration Management (Front Desk, Facilities, Library, and Transport) of all Schools with pre-defined standardized forms and formats to bring about efficiency, optimum resource utilization, and better reporting.

The School Management System helps all the stakeholders -students, teachers, parents, managements, alumni and the regulators discharge their role efficiently and effectively. Our System has been built in compliance with the state policies.

The School Management System is user-friendly, customizable, cost-effective and efficient in terms of speed, accuracy, transparency and conduct of large scale operations. The system facilitates universalization, operations and expansion of school and higher education for a state or country.

Features of the School Management System

1. All schools will have a Web Portal and all users (administration, teachers, employees and parents) will have a Single Sign On access to their role based functions.
2. Student Profiles and Employee Profiles can be accessed real time to monitor attendance and performance.
3. Utilization of Funds can be tracked in real time.

Benefits of School Management System

1. Tracking Student Performance
2. Monitoring Staff Performance to determine eligibility for Promotions, Incentives, Salary revisions etc.
3. Monitoring the efficiency and effectiveness of Student Welfare schemes, Disbursement of Uniforms and other Supplies
4. Can curtail leakages in procurement and identify pilferage
5. Return on Investment can be obtained in less than one year due to drastic cost cutting and resource optimization
6. Improves overall functioning and operations of schools/colleges
7. Helps measure Impact Assessment of Welfare Programs

Technology Used

Web Based, Cloud Hosted, Device Independent, Multi Browser Compatible, Open Source Enterprise level Technologies with a Service Level Architecture will be deployed.

Value Added Services

SMS Alerts, Email Integration, Biometric Integration, Bar Coding Integration, Tally Integration, Mobile Enabled App, Online Payment, Live Chat, Web/video Conferencing, Multilingual Support
